PACS numbers: 04.80.Nn, 95.55.Ym, 99.10.Cd

Equation (6) in the Letter should read

$$\epsilon_{\text{gw}} \leq 3 \times 10^{-6} \left(\frac{\epsilon}{1.3 \times 10^{-41} \text{ Hz}^{-1}} \right) \left(\frac{d}{15 \text{ kpc}} \right)^2 \left(\frac{f_s}{930 \text{ Hz}} \right)^2, \quad (1)$$

where we corrected two misprints and dropped the misleading dependence on τ_s , as this parameter, according to the tested models, is fixed by the x-ray observations.

*The correct affiliation of F. Salemi is: Physics Department, University of Ferrara and INFN Ferrara Section, I-44100 Ferrara, Italy.
